

“Invigorate Growth in Your Business” 2021

Michael is a Certified Family Business Advisor and keynote speaker with 30 years' experience.

2020 has been a tough year for businesses. Each day has left business owners drained and questioning what they need to change to get a different result?

Have you decided that in 2021 you are ready to commit to working on your business and on yourself? To invest time, and energy into invigorating your business.

Are you prepared to commit to your education, professional development & the success of your business?

My 2021 10-month “Invigorate Growth in Your Business” program is for you. Most programs fail during implementation. I will be by your side for 10 months.

The program challenges a different aspect of your business each month; we will have uncomfortable conversations; and you will construct a sustainable and customised business growth framework delivering decision clarity and business profitability.
